# ABOUT US

Hoysala Prowatch Security Services and Solutions is a professionally managed security service provider based in Bangalore, Karnataka. The company has been established with a clear objective of delivering disciplined, reliable, and professional security services supported by structured supervision and trained manpower

# WHAT WE DO

We don't just provide guards; we provide a managed safety ecosystem. We combine the discipline of traditional security with the transparency of modern technology.

- **Rapid Response Support:** Our Bangalore-based command structure ensures a swift, local response to any incident, 24/7.
- **Cost-Effective Deployment:** Optimized staffing models that maximize protection without bloating your budget.
- **Absolute Compliance:** 100% adherence to PSARA norms, PF/ESI, and rigorous police verification for every operative.

# WHY CHOOSE US:

- **Trained Personnel:** Guards are skilled in access control, fire safety, and emergency response.
- **Strict Supervision:** 24/7 operational support with regular site inspections.
- **Full Compliance:** Adherence to PSARA norms, police verification, and statutory labor laws.
- **Technology-Driven:** Enhanced accountability through digital reporting and monitoring.
- **Body-Worn Cameras:** Deployed based on client demand to record interactions and ensure guards adhere to professional conduct.
- **Active Coordination:** Our guards are trained to work in sync with existing on-site CCTV systems to identify and neutralize threats.
- **24/7 Vigilance:** Continuous monitoring of blind spots and perimeter areas to support physical patrolling.

# OUR SERVICES:

**Manned  
Guarding**

**Residential  
Security**

# TRAINING & DISCIPLINE

All personnel undergo a structured training program to ensure peak performance:

- Core Skills: Physical security, patrolling, and access control.
- Emergency Response: Fire safety, basic first aid, and incident handling.
- Professionalism: Training in professional conduct, communication, and discipline.
- Continuous Improvement: Periodic refresher training and on-site briefings.
- Visitor & Material Tracking: Technology-enabled registers to monitor every entry and exit point with precision.
